ARCHITECTURAL DECORATIVE CYLINDERS

Cella

ARCHITECTURAL DECORATIVE CYLINDERS

Featured Product
Cella 3" Diameter, 2' Height, Frosted, Surface Mount

The Cella collection brings clarity and rhythm to spaces through its cylindrical vertical form. Available in 2" and 3" diameters, the slender fixtures are paired with an acrylic diffuser offered in 2" and 4" heights, with fully or partially frosted finishes. Cella luminaires are suited to both accent applications and large-scale installations.

Cella 3" Diameter, 2' Height, Partially Frosted, Pendant Mount

Cella reinforcing spatial organization while enhancing verticality.

Cella Module

CELLA MODULE FOR PIVOT TRACK SYSTEM

Cella fixtures are available as modules within the Pivot system—Lumenwerx’s architectural magnetic track platform designed to integrate multiple module types within a single framework.

Pivot Track

Pivot is a magnetic track system that accommodates pendant-, recessed-, and surface-mounted fixtures, supporting general, accent, and wall-wash lighting applications. Tool-free installation allows modules to be added or changed easily using a magnetic connection.

Architectural Decorative Collections

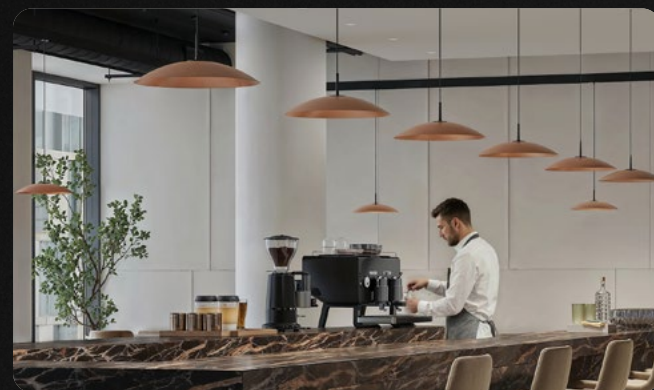

Cella sits within a broader range of architectural decorative luminaires from Lumenwerx.

Across pendants, rings, sculptural forms, and acoustic-integrated solutions, these collections support expressive applications while maintaining a consistent architectural language and standard of performance.

Globe Collection

Globe is a fully illuminated sphere, available in 4" to 16" diameters.

Obe Collection

Curved shade design with premium finishes and three optical variations.

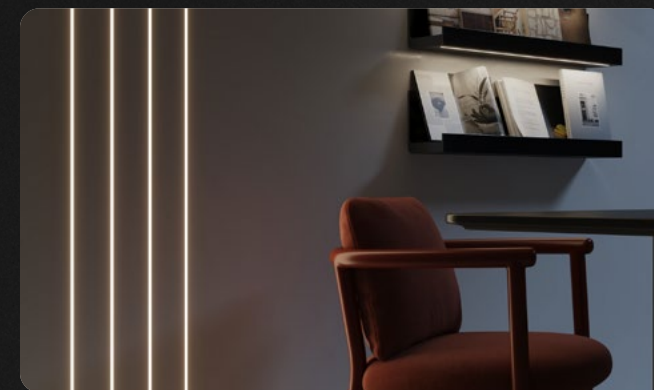

Rim Collection

Four distinct profiles offered in geometric shapes and sizes for expressive architectural compositions.

Shell Collection

Crafted for creative flexibility, Shell is available as a round, square, or linear fixture, in a variety of sizes.

Minear Collection

Miniature architectural luminaires in linear and ring-shaped profiles.

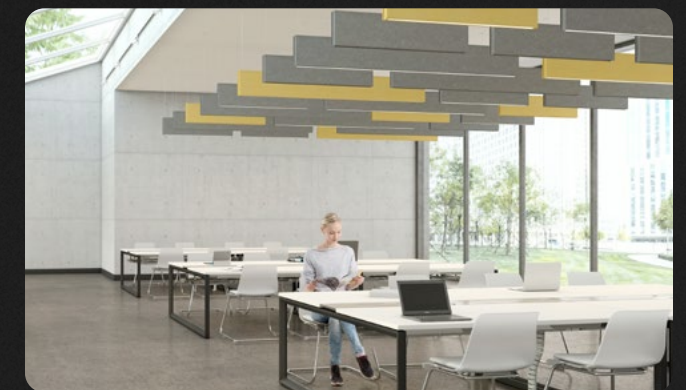

Pop Collection

Bright, efficient decorative luminaires offered in various shapes, sizes, and colors.

Flair Collection

Cylinder luminaires with refined proportions and detailing.

Acoustix Collection

Architectural luminaires combining light and acoustic control.
