Pop Collection

Pop provides comfortable, diffused, and efficient illumination for work, social and circulation spaces, along with the control capabilities demanded by contemporary construction.

Get inspired and give architectural spaces that distinctive pop, with the ever-evolving Pop collection.

Declare

Design Options

Pop delivers fixed white light in 3000K, 3500K, 4000K, and 5000K, along with tunable white from 2700K to 6500K, adjustable via a wall controller. With outputs up to 14,000 lumens, Pop provides high-performance illumination with a light touch.

With round, square, and rectangle shapes, various ceiling and wall mount options, and up to 110 lm/W, the Pop collection adds a vibrant layer to an interior lighting design.

UNITY POINTED (UP) TECHNOLOGY

Whether you're working with low, medium, or high output, every Pop shape and size emits identical luminous intensity values. Unity Pointed (UP) technology ensures luminous intensity is measurable down to the square inch, across the entire Collection.

Pop Recessed Regressed

On their own or as part of a grouping, Pop Recessed Regressed luminaires embed themselves into ceilings of varying heights, for a nonstandard approach to overhead lighting. See how they fit into your next design project.

Pop Recessed Regressed,
Square and Rectangle

Pop Recessed Regressed

Multiple options for endless possibilities. Pop Recessed Regressed luminaires shine on their own or as part of a playful composition with other Pop fixtures.

Luminaires are available in square, rectangular, and round shapes, in sizes ranging from 6" x 6" up to 48" in diameter. The collection holds its own under varying ceiling heights, offering outputs ranging from 220 lumens in a 6" x 6" fixture, all the way up to 18,000 lumens in a 4' x 4' option.

Pop Recessed Regressed also delivers an impressive 116 lm/W, thanks to a Uniform Lambertian Optic (ULO) with a 0.125" diffuser—rigid enough to hold its form in larger sizes.

EchoCore™

Who says offices and public spaces have to be noisy? Pop EchoCore™, featuring our patent-pending EchoCore™ technology, absorbs sound up to 30%, while offering the same cutting-edge illumination and eye-catching appeal as the rest of the Pop Collection.

Shown in the foreground:
Pop EchoCore™ pendant square
with 1-inch drop square lens.
In the background:
Audia EchoCore™. Both in our
iconic Pop cubic pattern.

EchoCore™ Technology

This patent-pending technology uses a die-cut aluminum wrap and multiple layers of sound-absorbing material to trap acoustic waves. As sound travels through the aluminum exterior, it hits an absorbent core resulting in a 30% decrease in decibels, compared to competing luminaires or traditional felt-fitted acoustic fixtures.

EchoCore™ luminaires also deliver exceptional illumination with a variety of circadian, tunable white, and RGB+W options. Plus, thanks to a wide variety of standard, premium, and custom shapes, patterns and mounting options, you've got plenty of ways to define space, while muffling sound.

Pop Recessed Acoustix

Pop Recessed Acoustix is an unlit sound absorption panel that fits into suspended ceiling tile. Available in three shapes, four heights, and 30 PET felt colors (10 standard and 20 premium), Pop Recessed Acoustix can be used with related Acoustix and/or traditional luminaires. Mix patterns, heights, and colors for a one-of-a-kind acoustic lighting solution.

WELL™

The lattice-patterned luminaire informs the surrounding interior design.
