

MINEAR 3/8"

DIRECT
RECESSED, SURFACE

From the Minear Collection of miniature, made-to-order luminaires, the 1/2" profile balances a compact scale with increased performance and optical flexibility. Recessed or surface mounted and available with an asymmetric option, the 1/2" model supports applications requiring subtle wall-wash effects, directional emphasis, or added visual reach—while preserving the minimalist character of the Minear family.

Technical Specifications

OPTIC

Balanced Lambertian Optic (BLO)

The Balanced Lambertian Optic (BLO), made from high-quality satin-diffuse acrylic, uses a micro-textured surface to produce soft, uniform distribution with a glare-controlled falloff and a wide 110° beam, ensuring consistent illumination and visual comfort.

LIGHT SOURCE

Custom array of mid-flux LEDs are cartridge-mounted with quick-connect wiring to facilitate service and thermal management. Available in 2700K, 3000K, 3500K, 4000K, and 5000K with a minimum 80+ CRI and an option for 90+ CRI with elevated R9 value. Color consistency maintained to within 3 SDCM. All LEDs have been tested in accordance with IESNA LM-80-08 and the results have shown L80 lumen maintenance greater than 60,000 hours. Absolute product photometry is measured and presented in accordance with IESNA LM-79, unless otherwise indicated.

LUMINAIRE LENGTH

Minear is available in standard lengths of 1' to 8'. Continuous runs are available for run lengths over 8', with a joiner bridge visible every 8'. Exact run length must be noted in the product code. The minimum length is 1', and can be ordered in 1' and/or 4" increments.

ELECTRICAL

Factory-set, adjustable output current LED driver with universal (120-277 VAC) input. Dimmable from 100% to 1% with 0-10V dimming control. Rated life (90% survivorship) of 50,000 hours at 50°C max. ambient (and 70°C max. case) temperature. At maximum driver load: Efficiency > 84%, PF > 0.9, THD < 20%. Other specifiable options include Lutron Hi-Lume 1% Eco, eldoLED 1% ECOdrive 0-10V, eldoLED 0.1% SOLOdrive 0-10V, ELV, TRIAC, and DALI protocol drivers. All of our standard 0-10V drivers are NEMA 410 compliant. ELV and TRIAC dimming performance (including minimum dimming percentage) subject to dimmer selection.

PoE

Depending on the PoE manufacturer selected, Lumenwerx will install the node in factory as either integral to the luminaire or as a remote module. These must be addressed and evaluated on a case-by-case basis.

MOUNTING

Recessed: Recessed fixtures can be mounted in drywall ceilings with a mud flange option. The fixture is secured with a clip.

Surface: Surface fixtures can be mounted directly to drywall and hard surface ceilings with a clip. Long runs require a minimum distance of 2" from the vertical wall.

FINISH

Matte white, matte black or aluminum powder coating. Custom finishes are also available.

CONSTRUCTION

Housing: Extruded aluminum

Lens: Acrylic

Mounting clip: Polycarbonate

End caps: Aluminum

WEIGHT

Recessed: 0.25 lb/ft - 115 g/ft

Surface: 0.14 lb/ft - 62.5 g/ft

CERTIFICATION

ETL: Rated for indoor dry/damp locations. Conforms to UL Standard 1598 and certified to CAN/CSA Standard C22.2 No. 250.0.

IC rated: Suitable for direct contact with insulation. For Recessed mounting only.

WARRANTY

Lumenwerx provides a five-year limited warranty on electrical and mechanical performance of the luminaires, including the LED boards, drivers, and auxiliary electronics. Lumenwerx will repair or replace defective luminaires or components at our discretion, provided they have been installed and operated in accordance with our specifications. Other limitations apply, please refer to the full warranty on our website.
